Geographic Performance Overview

Texas (TX)

Key market contributing to 68% regional total

New York (NY)

Key market contributing to 68% regional total

California (CA)

Key market contributing to 68% regional total

TX, NY, and CA collectively represent 68% of total transaction activity, demonstrating concentration in major metropolitan markets.

Made with GAMMA

Activation Rate Performance

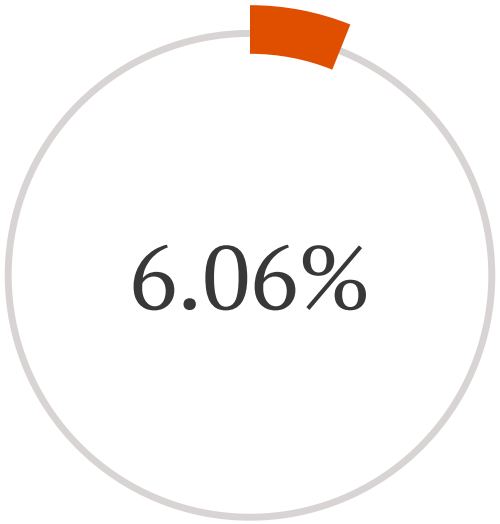
57.5%

Overall Activation Rate

Activation rate represents the percentage of accounts that have completed onboarding and initiated transactions. At 57.5%, there remains opportunity to drive higher activation through targeted onboarding campaigns and improved customer education.

Made with GAMMA

Delinquency Rate Analysis



Overall Delinquent Rate

Accounts requiring collection action

Current delinquency rate stands at 6.06%, representing accounts that are past due and may require collection intervention. This metric should be monitored closely as it impacts revenue realization and credit risk exposure.

Strategic Priorities for Next Year

01

Increase Activation Rate

Target higher than 57.5% through improved onboarding

02

Reduce Delinquency

Target lower than 6.06% through proactive collections

03

Expand Geographic Reach

Diversify beyond 68% concentration in TX/NY/CA

04

Balance Gender Contribution

Grow female customer revenue from 46% of total
